NOMADIC

OFF-ROAD CAMPERS AUSTRALIA

It's a way of life...!!

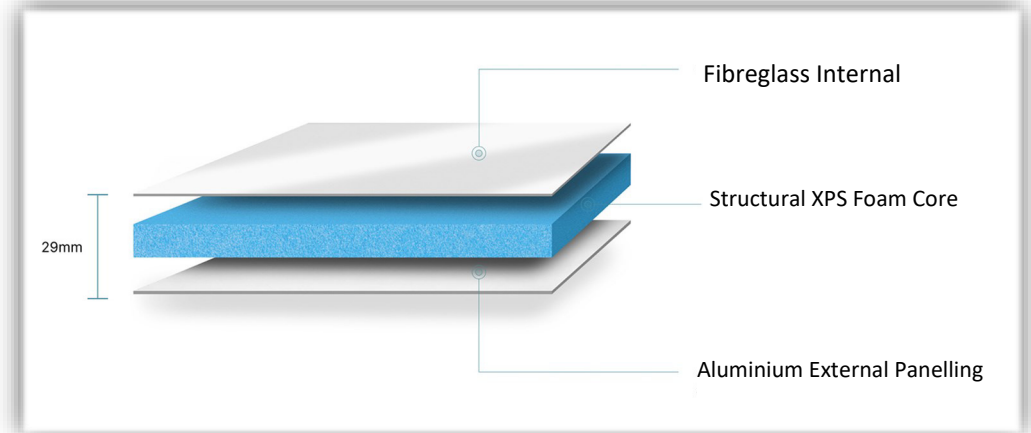

Lighter Weight = Better Fuel Efficiency...

All Nomadic Off-Road Campers & Caravans are built using the latest **XPS Foam Core Panelling & Honey Comb Flooring technology** promoting a significant reduction in overall weight when compared to traditional methods.

Lightweight, fuel-efficient caravans represent a significant advancement in sustainable travel, offering numerous benefits for touring enthusiasts.

The reduction in weight means less power is required for towing, which directly lowers fuel consumption and **reduces travel expenses**.

What we do better then others...

In today's crowded market, it's crucial for customers to see past enticingly low prices and prioritise the essential features of a caravan that ensure a safe and reliable journey. **Focus on quality and durability** - key factors that guarantee your caravan will take you to your destination and back, without compromise.

DEVELOPMENT

Our entire design & development is done in-house giving us better control on the product we build for our customers

BEARINGS & SHOCKS

Every Nomadic Off-road Camper is fitted using the highest quality **NSK Bearings / Seals & MONROE Off-Road Gas Shock Absorbers**

12v ELECTRICS

Every Nomadic Off-road Camper 12v system is purchased & fitted in Australia by licenced trade qualified **Auto Electricians** for peace of mind.

240v ELECTRICS

Your safety is paramount which is why all 240v systems, fixtures & fittings are purchased in Australia and fitted by licenced **Australian Electricians**.

GAS & PLUMBING

Unlike other manufacturers we don't save funds and put lives at risk by plumbing our vans overseas. We only use licenced **Australian Gas Fitters & Fittings**.

LITHIUM BATTERIES

The risks when using low quality cheap lithium batteries are too high which is why we only purchase & use premium **PROJECTA LiFePO4** batteries

Proudly supporting Aussie Jobs...

NORCA-18 Couples Escape

NARROW-BODY HYBRID CARAVAN

“The amount of heads that turn when we drive into a camp site qualifies our decision.”

The days of towing non-efficient 22-24ft vans that are 2.5m wide are on the decline. Customers want narrow body vans which can sneak into more remote locations more often. Able to be towed behind most modern 4wds this NORCA-18 features a huge master bed, Separate Toilet & Shower, Internal & External Cooking, 175L Fridge, Microwave & washing Machine.

Discover more remote destinations with ease & comfort...

Tare: 2620kg
 ATM: 3250kg
 Ball: 110kg
 Width: 2.25m (with awning)
 Length: 7.85m (End to end)
 Height: 3.05m (closed with ac)

NORCA-18 Triple Bunk

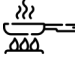

NARROW-BODY HYBRID CARAVAN

“The Perfect weekender, getaway or grand tourer to do a lap with the family...”

The **NORCA-18 Triple bunk** epitomises what a family van should be. Light enough for most modern 4WD's, Large bunks for growing kids, huge master bed, internal & external cooking, internal 175l fridge, Microwave etc. Best of all it is easy to tow and even easier to use. If you are looking for a van that ticks the boxes for future proofing your families needs then you simply have to put the **NORCA-18 Triple Bunk** on your list.

Tare: 2600kg
 ATM: 3250kg
 Ball: 110kg

NORCA-19 On-Road Escape

19ft Caravan with Island Bed

Since when did owning an on-road van mean missing out on off-grid camping & an external kitchen?

The NORCA-19 has been specifically designed for couples who want to travel this incredible country in comfort but without having to sacrifice modern luxuries such as a huge External Kitchen, off-grid power system, and larger water capacity. The large island bed & internal facilities means pulling up and taking refuge now requires no effort at all.

Internal & External	400w + 400w Capacity	External & Internal Cooking	200L Fresh & 120L Grey	Reverse Cycle Aircon powered off Inverter	Travel in Comfort	175L Internal Fridge
